KETKANOK JONGCHAM

Product Owner · Project Manager

Tel. +669-2646-1283 | 7.ketkan0k@gmail.com | ketkan0k.github.io/portfolio | Bangkok, Thailand

PROFESSIONAL SUMMARY

Product Owner and Project Manager with over 5 years of experience leading end-to-end digital product development in the real estate industry at Noble Development PCL. Currently owning and managing 8+ digital platforms across POS and Non-POS ecosystems - serving as the company's sole Product Owner for its entire digital ecosystem. Skilled in translating C-Level business direction into structured development plans, UX/UI review, QA oversight, UAT coordination, user training, and post-launch support.

WORK EXPERIENCE

Promoted Apr 2023

Experience & Platform Support Manager / Product Owner — Feb 2021 — Present

Noble Development PCL · Bangkok, Thailand

- Own & manage full digital portfolio: POS (CRM, Booking, Contract, Transfer) and Non-POS (Noble ID, Website, CMS, CDP, Payment)
- Drive end-to-end delivery — requirements, HLR/DLR docs, UX/UI review (Figma), QA, UAT, training, go-live & post-launch support
- Report directly to SVP and C-Level, translating business strategy into actionable product roadmaps
- Enforce structured quality gates across development and UAT phases, ensuring every release meets acceptance criteria before go-live
- Lead the Application Specialist team handling post-launch support — track and triage cases via Zoho, generate reports, analyze recurring issues, and drive solutions to prevent repeat incidents
- Oversee cross-functional collaboration across backend, frontend, and data engineering teams to deliver product roadmaps on schedule
- Primary trainer for all system launches; go-to consultant for sales leadership on systems & new initiatives

Manufacturing Operations Coordinator — 2017 — 2020

OMRON Corporation · Shiga, Japan

- Coordinated cross-departmental projects between Production and Manufacturing Engineering divisions
- Prepared production efficiency reports and performed product quality inspections
- Trained new interns; earned Basic Electronics Assembly Technician certification (Sep 2018)

IT Coordinator (Officer) — 2014 — 2017

Continental City Co., Ltd. (Noble Dev. Subsidiary) · Bangkok, Thailand

- Coordinated IT operations across internal users, suppliers, vendors, and service providers
- Managed annual IT planning and budget allocation; trained users on all organizational systems

Systems Tester (Intern / Part-time) — 2010 — 2014

Continental City Co., Ltd.

- Tested enterprise systems and provided user consultation on software usage during undergraduate studies

KEY PROJECTS

- POS Ecosystem — Product Owner: 18 modules covering full sales cycle, managed 100+ RFC and New Business projects
- ERP Migration — Sales System PM: Led POS–REM integration, Go-Live May 15, 2024 with zero critical incidents
- Nue Epic Presale — Large-Scale Event: Orchestrated flagship presale event coordinating 100+ staff
- Non-POS Portfolio Takeover: Assumed sole ownership of Noble ID, Website, CMS, CDP & Payment systems
