Product Owner · Project Manager · Application Management · IT Business Partner

Tel. +669-2646-1283 | 7.ketkan0k@gmail.com | ketkan0k.github.io/portfolio | Bangkok, Thailand

PROFESSIONAL SUMMARY

Product Owner and Project Manager with over 5 years of experience leading end-to-end digital product development in the real estate industry at Noble Development PCL. Currently owning and managing 8+ digital platforms across POS and Non-POS ecosystems - serving as the company's sole Product Owner for its entire digital ecosystem. Skilled in translating C-Level business direction into structured development plans, UX/UI review, QA oversight, UAT coordination, user training, and post-launch support.

WORK EXPERIENCE

Head of Application Management · Product Owner

Nov 2026 — Present

Noble Development PCL · Bangkok, Thailand

- Head the Application Management Division for sales & marketing systems - leading the Application Specialist team and directing development teams across all platform projects
- Own & manage the full digital portfolio: POS (CRM, Booking, Contract, Transfer) and Non-POS (Noble ID, Website, CMS, CDP, Payment)
- Lead the CEO-sponsored Speed Up Contract project - API, online payment and e-signature integration with an overseas sales agent

Experience & Platform Support Manager (Product Owner) *Promoted Apr 2023*

Apr 2023 — Oct 2026

Noble Development PCL · Bangkok, Thailand

- Product Owner for the POS ecosystem (18 modules); took over the Non-POS portfolio (Noble ID, Website, CMS, CDP, Payment) as sole PO in May 2025
- Drive end-to-end delivery - requirements, HLR/DLR docs, UX/UI review (Figma), QA, UAT, training, go-live & post-launch support
- Report directly to SVP and C-Level, translating business strategy into actionable product roadmaps
- Enforce structured quality gates across development and UAT phases, ensuring every release meets acceptance criteria before go-live
- Lead the Application Specialist team handling post-launch support - track and triage cases via Zoho, analyze recurring issues, and drive solutions to prevent repeat incidents
- Oversee cross-functional collaboration across backend, frontend, and data engineering teams; primary trainer for all system launches

Application Specialist

Feb 2021 — Mar 2023

Noble Development PCL · Bangkok, Thailand

- Supported sales users on the POS system - handled cases, troubleshot issues, and coordinated fixes with development teams
- Executed UAT for POS releases and enhancements before go-live
- Trained sales teams on new POS features and system launches

Manufacturing Operations Coordinator

2017 — 2020

OMRON Corporation · Shiga, Japan

- Coordinated cross-departmental projects between Production and Manufacturing Engineering divisions
- Prepared production efficiency reports and performed product quality inspections
- Trained new interns; earned Basic Electronics Assembly Technician certification (Sep 2018)

IT Coordinator (Officer)

2014 — 2017

Continental City Co., Ltd. (Noble Dev. Subsidiary) · Bangkok, Thailand

- Coordinated IT operations across internal users, suppliers, vendors, and service providers
- Managed annual IT planning and budget allocation; trained users on all organizational systems

Systems Tester (Intern / Part-time)

2010 — 2014

Continental City Co., Ltd.

- Tested enterprise systems and provided user consultation on software usage during undergraduate studies

KEY PROJECTS

- Speed Up Contract: Agent Booking Integration (In Progress): CEO-sponsored API, online payment & e-signature integration with a Hong Kong sales agent, targeting booking-to-signed-contract within 2 hours (from 3–10 days)
- POS Ecosystem: Product Owner: 18 modules covering full sales cycle, managed 100+ RFC and New Business projects
- ERP Migration: Sales System PM: Led POS–REM integration, Go-Live May 15, 2024 with zero critical incidents
- Nue Epic Presale: Large-Scale Event: Orchestrated flagship presale event coordinating 100+ staff
- Non-POS Portfolio Takeover: Assumed sole ownership of Noble ID, Website, CMS, CDP & Payment systems
